

**5<sup>th</sup> CONVENTION-EXHIBIT TTEXPO**  
MATERIALS - TECHNOLOGY - MARKET  
**Convention-exhibit about heat treatment of metal and related technology**  
**15-16 November 2018** at the expo district of Piacenza - ITALY  
*TWO DAYS OF MEETING, UPDATING AND OPPORTUNITIES*

## **HEAT TREATMENT WITHIN 4.0 INDUSTRY AND NEW MARKETS**

The innovative and well-established appointment TT EXPO comes back in Piacenza with an interesting program of meetings and conventions. The exhibition, organized by Piacenza Expo with the sponsorship of Anima/Cicof (Comitato Italiano dei Costruttori di Forni Industriali) and Fondazione Promozione Acciaio, aims to become a meeting point among workers in the sector and a showcase of the latest innovative solutions.

- The **CONVENTION**: it will host technical-scientific sessions with high level presentations that will exhaustively and extensively cover every theme which is meaningful for the sector. Within the discussed issues of this fourth edition: energy-saving in industrial ovens, 4.0 industry and preventative maintenance, machinery and simulation systems, processes' checks.
- The **EXHIBITION**: alongside the gallery of the Convention Centre you'll find desks of the best product and technology suppliers related to the heat treatment and metallographic analysis. Companies will find space in the ultimate context for commercial relations and professional updatings.

TT EXPO steps forward as the ideal place to improve the dialogue between constructors and users: the forum, indeed, meets the need to offer this technologically advanced sector with the ideal appointment.

The newness of contents and the openness to new approaches and methods of production has always been the main feature of TT EXPO that still steps forward, in this fifth edition, as a moment of detailed study and synthesis of heat treatments actual state.
